

US Autographed Covers & More!

The bulk of our list is for First Day Cover's signed by the designers and engravers. What is particularly interesting about this lot of designer and engravers is that the owner of the collection sent letters to various people associated with the stamp and had several FDC's made - each signed at the center to lower right by someone involved with the issue, designer, letterer, engravers etc. The covers are sold as sets which are typically 3 or 4 covers and as many as 6. Details or scans or photocopied of any of these sets are provided upon request. These sets will have matched cachets unless otherwise noted. Prior to 1970 most are ArtCraft covers. They have proved to be very popular among exhibitors of FDC's and US issue collectors!

Other covers listed here are the more traditionally seen covers; that is covers signed by just the designer or all signatures of designer(s) and engravers on one cover. Most are for 3 signatures but it does vary, please inquire.

Also included on this list are covers signed by other notable individuals that are associated with issue such as Governors, dignitaries and other statesmen, Postmasters, heads of organizations as well as artists, athletes , Nobel prize winners and even Presidents!. If a date is given, it is not a First Day. Please note that the majority of Senators and Representatives that signed these covers did so because they were the sponsors of the stamp.

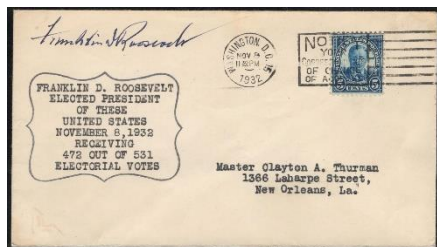

Interested in a particular issue? We have a vast array of unusual cachets, cancels and usages. Give us a call and we would be happy to get a selection ready for you!

Many other autographs are available for a particular issue, please inquire!
